

NEW CE Marked

Relief Valves & Safety Heads

High Pressure Equipment now offers a line of 20,000 psi+ relief valves and safety heads with CE marking. HiP's receipt of a Pressure Equipment Directive (PED) Certification is part of the company's commitment to world class quality and customer service. These products will proudly be marked with the CE symbol, signifying they comply with the stringent requirements of the product directive.

HiP offers a broad product portfolio capable of handling pressures up to 150,000 psi. Backed by the industry's quickest delivery and only factory-direct customer service, our technical team will help you find the right solution for your job, whether it's picked from stock, or a custom solution. Give us a call and let's start the conversation today.
