

**HIGH PRESSURE
EQUIPMENT COMPANY**

5240 SERIES PORTAPACK

PACK COMPRISES

- ¼" F air filter / regulator
- 2 ½" diameter air pressure gauge
- Air on / off valve
- Tough 5 litre plastic reservoir with integral suction strainer and filler / breather
- Stainless steel pressure isolation valve and vent / return valve
- 4" Diameter full safety pattern high pressure output gauge
- Interconnecting stainless steel pipework and fittings
- Hand lever for Manual operation – ideal for locations without compressed air or where precision control is required

All securely mounted in stainless steel tubular framework

PART NUMBER	MAXIMUM OUTPUT PRESSURE	DISPLACEMENT PER CYCLE CU	GAUGE RANGE	OUTLET PORT
5240 - 15	2,250 psi	0.27"	0 - 3,600 psi	¼" NPT
5240 - 25	3,500 psi	0.18"	0 - 6,000 psi	¼" NPT
5240 - 35	4,375 psi	0.14"	0 - 6,000 psi	¼" NPT
5240 - 45	6,125 psi	0.10"	0 - 5,800 psi	¼" NPT
5240 - 65	8,875 psi	0.069"	0 - 10,000 psi	¼" NPT
5240 - 105	14,000 psi	0.044"	0 - 15,000 psi	¼" NPT
5240 - 125	15,600 psi	0.044"	0 - 20,000 psi	7/16" - 20 UNF
5240 - 195	24,375 psi	0.038"	0 - 25,000 psi	9/16" - 18 UNF

125 & 195 models have female outlet ports for coned and threaded high pressure tube c/w gland and collar

Flow curves available

Oil or water as the hydraulic medium

Operating air pressure 15 - 125 psi

Air drive consumption 5 - 15 SCFM

Each unit factory pressure tested prior to despatch
