**AIR DRIVEN POWER PACKS**

- Standard and custom power packs – our leading product for over 40 years!
- Bolt tensioning and clamping
- Hydrostatic testing up to 65,000psi
- Operation of hydraulic valve actuators
- ATEX certified

**MORE INFO**

---

**BESPOKE PRESSURE EQUIPMENT**

- Hydraulic power consoles
- Custom test rigs
- Trailer mounted units
- ESD units
- Transfer pumps
- Safety valve operation

**MORE INFO**

---

**Options include**

- Chart recorder
- USB port
- Stroke counter
- Transducer port

---

**THE UK’S PREMIER HIGH PRESSURE EQUIPMENT COMPANY**
**TDA PUMP**
- High pressure, high volume, up to 30,000psi
- Pressure testing of large I.D. pipe work, hose umbilicals, wellhead control valves etc
- Chemical injection including methanol and glycol
- ATEX certified
- Severe service seal option

**CHEMICAL INJECTION**
- AC and DC ‘Wolverine’ pump series
- Solar operated packages pneumatically operated ‘Python’ pump series
- Use half the air consumption of many competitors’
- Lower cost of ownership
- ‘Harrier’ controllers
- Accurate and immediate operational data from a mobile device

**GAS BOOSTERS**
- Output gas pressure up to 25,000psi
- Nitrogen accumulator charging
- Breathing air
- Pressure test applications
- Aircraft maintenance
OTHER PRODUCTS

**HIP VALVES, FITTINGS & TUBING**
- Pressure range from 10,000 – 150,000psi
- Air operated valves
- New subsea ball valves
- Reactors and pressure vessels

**PRESSURE TEST FACILITY**
- Water and oil up to 60,000psi
- Nitrogen up to 20,000psi
- Live digital test reports
- Third party inspection and administration area

**A FRAMES & TEST MANIFOLDS**
- Multi port options
- Medium and high pressure connections
- Built in thermowell and relief valve option

**ON SITE SERVICE & SUPPORT**
- Service, repairs, installation and commissioning
